We have been vacationing on Vermilion for nearly  
decided to own our own little piece of it. Our family owns

My opinion is that lake Vermilion is a privilege to enjoy & not  
a right and as such feel the more restrictive we make it to high density living  
and noise & light pollution, protect the water quality & the fishing. It will be here for my  
kids grandkids to enjoy in the same way we do today. Protect the lake &  
its current residents & you will be doing the right thing for the lake.

I believe the elimination of outdoor music at the Bay View  
was a huge mistake caused by a vocal minority. The squeaky  
wheel definitely got grease! The beautiful facility & deck are  
being wasted right now & many people used it as a boating  
destination. All that's gone now because of a few people. Put it  
to a VOTE in the township! What's the fair way, a time limit of  
say 10:00pm could maybe be used to appease both sides.

I strongly support the St. Louis County Lake Vermilion Plan.

I also believe there are functions - Assessment AND Zoning Enforcement which are not being adequately or competently done by Greenwood - These should be handed back to St. Louis County for the good of all (Politics play too large a part - esp. in the P+Z decisions)

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Sounds like the sonder of this inquiry is in FAVOR of More Taxes and Authority. Protecting the lake and Lakeshore is one thing - Providing Seniors and the large <sup>general</sup> public extra services is another!! One of my main concerns is on waste water treatment systems that were grandfathered in for existing rules. I truly believe that these systems are the main problem for our lake water quality and that these systems need to be checked on a regular basis w/ those that fail being required to be fixed.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

We absolutely do not want to be part of the Cook Hospital. We want resorts + liquor establishments to be able to have outdoor music + entertainment. This is a recreational lake + a few vocal people are ruining it for the majority. We would like the Bay View open. It is the best resort on the lake + I think Greenwood Township was very unfair to them.

We have subscribed to the Timber Jay for years + I like its reporting. Announcements should be made in both newspapers.

We don't know much about dark sky lighting or the Lake Vermilion Plan. A township newsletter or specific articles in Timber Jay would be great.

Noise from excessively noisy boat motors distract from quality of Lake experience. We support outdoor music that is not loud + afternoon + early evening only. Outdoor music should be allowed without excessive noise.

Agree!

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

The plan should not make it more difficult to upgrade existing cabins/boat houses already on the lake. Please don't require storm water treatment, etc if you/the owner wants to add to or modify existing buildings.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

The lake is a jewel, should be preserved as best as possible without forcing out the people who have lived here or have had cabins for ages. By that I mean, restrictive policies that the retired simply cannot afford and would have to move. Opportunities in recreation will help the young of the families that have lived here and established, keep coming back & take pride. There should be some kind of ATV trails to connect with others so we don't have to drive on private properties to enjoy the outdoors! Baseball, softball backstop & room at Township Hall

Limit township involvement in day to day life. Allow more minor projects without scrutiny.

Open Bayview!  
a common practice is to have someone ID all bar patrons as they enter, if they give wristband to show they can drink.  
If noise is an issue restrict outside. ~~and~~ music to weekends and before 10pm. Enforce underage drinking laws. Maybe require wristbands for people who have been drinking.

Being a seasonal resident who has come to L.V. my on the lake. The tone of the lake runs very deep. However summer residents would also like to be a part of meetings that seemed to be scheduled at times not many seasonals are around. We do contribute heavily to the economy - & also pay hefty taxes for the privilege of enjoying the lake.

I think Greenwood govt should limit itself & size to that of a town & not expand & assume county functions.

I have never seen this property & would not know how to get there, it was my grandfather and then my parents before me.

Let's not bog down our area with impossible rules, regulations and "improvements." Many of these will only cause to increase our taxes and put more of a burden on an aging population. Let's keep Vermilion the uncomplicated, pristine lake everyone has grown to love. If we wanted <sup>all</sup> the amenities of a city, we would move to a city.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

I would recommend the steering committee keep in mind that some of these changes would require more taxes, which I am not at all for. Lake property taxes are high enough.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

I would like to see off-road ATV trails in addition to bike trails. Please encourage Verizon to get a dish on the Fraser Bay Rd tower. Regulations are good for Lake Vermilion but we also need to allow property owners to develop their land without so much red tape. We need to preserve for the next generation but also encourage them to want to use it (more access to technology and less rules/regulations).

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

We have just sold our property that we had gone to. My father has a place on [redacted] and in the 60's & 70's he owned [redacted] - so I grew up on Lake Vermilion - I was age 6 & now am 68. We come every Summer.

allow Bay View to use their dock for bands until a reasonable time of night - say 10 pm. I live near Fortune Bay & could hear Ted Nugent swearing. No complaint from me as I know they were there first & the potential problem was there! Admit fishing tournaments? I don't even know they are happening. Get people come & enjoy the lake - it brings commerce to the area.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

We like the lake as is other than TOO MANY MUSKIES! Ruined our family fishing spots —

I feel that many of the questions are leading to a goal of more regulations, increased expenses and attempting to stymie change or new opportunities. I don't want to turn the lake something that it's not but a little something people need recreational opportunities.... I did not buy to be on a retirement lake....

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Survey is not detailed enough to answer some questions properly. But for sure the last thing we want is more restrictions on property ownership. The taxes are too high for the services currently received. Can't imagine what they would be if you want to do more. Gov't Doing More is not a good thing it just creates more problems.

Greenwood township needs less government influence and less property tax. Shrink the effects of Greenwood township government. Do you really need town fire boats? Redundant?

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Too much government, TOO MUCH INTERFERENCE!!  
We pay taxes and enjoy the lake because it takes us away from all of these issues!

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

We are totally opposed to the Township joining the Cook Community Hospital Tax District. We've had medical issues, one involving an ambulance, and in all instances we were well-served by the Virginia hospital. Joining the Cook hospital district would not serve us at all and would be an unnecessary waste of money. We are not interested in a hospital for the residents of Cook.

I wouldn't worry too much about boat raise. When airplanes  
load & take off it's a lot noisier than a few boats. I've  
also been fascinated every time I see a plane taking off on the  
water. If people are going to be this critical of over a little  
noise or boat raise... Move to a farm!! There's no  
young people here, so let us grow old together & don't worry  
if someone has a little louder boat than you do.

The ultimate solution!  
Get rid of Planning &

St. Louis County should be responsible for many issues in this survey. We pay for their services through our taxes. Greenwood Township should not get involved in issues monitored by the county, such as loud motors and exhaust issues, amplified music, renting, housing developments on and off the lake, lighting complaints, variances the county already handles, acquiring land for roads and cemeteries, and the list goes on. How many people do you propose to hire for all these areas. How much are you proposing to increase our taxes? We're a rural community supported by the county. We do not need to even consider becoming a city.

Our property has changed dramatically since our family acquired it almost . . . years ago. I am for growth, but would like to retain some of the attributes that rural lake living has given us over the years. Too many restrictions would spoil the freedom we have enjoyed. I Preserve the water quality is my main concern.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Adequate lighting for driveways, walkways, stairs, boat docks are a safety concern. Dark Sky lighting would not be enough lighting for safety purposes.

It is hard to agree or disagree when specifics are not printed or referenced to the question. Most of these questions are too general to answer. Unless you had printed the Lake Vermilion plan with the specifics the question could not be answered.

Food service at the Bay View is a strongly offensive situation. When you go out for dinner, you need to be able to talk to the other people at the table (+ neighboring residents) should most have to be disturbed.

Thank you for your service to the township. I just want to emphasize my two strongest recommendations in keeping Lake Vermilion the beautiful, BWCA type lake it should be. Enforce the motor exhaust systems + Preservation + restoration of native Shoreland vegetation.

Our primary residence is also currently located in a township with a lake. This township does their job - roads, safety (police) and fire protection. They leave other issues to the other governing bodies. As seasonal residents of Greenwood Township we are constantly amazed by the meddling of the township in anything and everything. You have policies for multitudes of issues yet don't enforce anything anyway. Keep it simple - roads, fire protection + safety.

Living in the country has its own advantages and rewards and  
some inconveniences. For those who appreciate country living,  
they deal with the inconvenience. For those who want all the

We love Lake Vermilion. I grew up here. The over-reach of the <sup>Federal,</sup> State & local government is insanity. 30 years ago people enjoyed the lake more, more people were on the lake, and they weren't burdened with so much regulation, rules, and standards/fees. Let's relax and enjoy our beautiful lake. I'm happy to help keep it clean and beautiful, but not give up so many individual rights to appease.

Our understanding is that ~~for~~ for an emergency the water ambulance at Shamrock marina would come to our property, pick us up and transport to shore where an ambulance would be waiting to take us to Cook Hospital (open 24 hrs). If this is not accurate we do want a hospital open 24 hrs. Can't we use Cook Hospital?
- #13. Can't we use Cook Hospital even if we aren't paying taxes? If not, then yes we should join the Cook Comm Hospital Tax District.

First off, thank you to the plan commission for conducting this survey and for your efforts to best protect the township. We appreciate your efforts! ~~to the~~ ~~plan~~ ~~commission~~ Let's keep the lake clean and consider removing exotic species. Good fishing = high property values and good tax base. Please enforce noise on the "Baja" style boats where excessive. More walking trails are always enjoyed by locals and visitors alike. Consider encouraging lakeside businesses like restaurants that we can boat to. I am greatly disappointed in the limited availability of the Bayview Restaurant.

I am not familiar with the Lake Vermilion Plan & would be interested in learning more about it. Could an occasional news letter inform property owners of such matters?

The wording in these two items, which we have marked with an asterisk\*, is a little confusing.

These are issues that probably need to be addressed by Greenwood Township. However, we want to clarify that we are opposed to:

- 1) Allowing conversion of single family homes and resorts to multiple family housing
- 2) Allowing property owners to rent out their lakeshore properties

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Please allow seasonal residents to be allowed to talk at the Greenwood meetings - this is not the case. Not allowed to voice our thoughts on subjects related to Greenwood.

We should have equal voice rights to the year round residents. Not asking for voting rights - just allowed to talk at

A summary of this questionnaire should be provided to all residents this form was mailed too.

Absolutely NO SIREN WARNING SYSTEMS ON LAKE OR GREENWOOD TOWNSHIP,

In spite of much publicity concerning the importance of native shoreline vegetation in preserving water quality, we are surprised how few property owners in our area pay heed to this principle. Might there be some way to incentivize these folks? High deer population on Birch Point is a continuing nuisance problem!

THANKS  
for all your work!

#### ADDITIONAL COMMENTS

Thanks for the opportunity to respond to this Community Survey. We hope that in the future Greenwood Township will expand upon this effort and become more open to soliciting regular input from us seasonal residents. Since we "seasonals" own a significant proportion of the properties located in the Township and pay taxes at the same rate as year around homeowners, we appreciate opportunities to provide input to decisions being made by the Township Board. Including us in these kinds of surveys, along with appointing non-Township residents to advisory committees, publishing minutes of all Township Board and Committee meetings, and other efforts by the Board to enhance communications with all Township property owners would be seen as a positive indication of the Board's interest in enlisting input from all of the property owners in the Township

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Greenwood Township should be more responsible for Not raising taxes and spending tax dollars carefully and responsibly. Regulations seem to apply only for some and not all residents, both year around & seasonal. We see soap residue coming across our bay from the islands & mainland with no road access! The big boats stop in the middle of the bay with loud music & partying at night

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Because Greenwood Township has the largest area consisting of Lakeshore properties it would make sense to have all of Lake Vermilion serviced by one governmental unit rather than have it divided with one unit having extensive staff and Greenwood having only 1. Discrepancies are sure to occur!

Do Not Join Cook Hospital district.

The reason we own property on the lake is to have a get-away place with the lake features that Vermilion has. Please don't over develop the lake.

- I THINK THAT BAYVIEW SHOULD BE OPEN EVERY WEEKEND, IT'S NICE TO HAVE OPTIONS FOR DINING!

It is our opinion that Greenwood Township should focus on the maintenance of existing infrastructure and abandon plans for so-called enhancements.

THIS IS A DUMB SURVEY-

DOES NOT ASK THE QUESTIONS THAT SHOULD BE ASKED!!!

## GWT survey

### Comments for survey

st louis county needs to take over planning and zoning

the cook hospital needs to stand on its own two feet like any other business much like Klairs consulting firm, do they take hand out too????

we as residents do not want to pay for cook hosp. mistakes and do not wish to give another body the ability to levy monies from us in any way they see fit, we dont need another town board in our pockets, we have enough problems now

the tower ambulance does not send people there anyhow, most all go to Virginia, cook hosp only sends them on anyhow  
if cook ambulance could take a person somewhere else they should they are forced by law stop there.

we have excellent medical now without the cook hosp. being an essential part

this survey was poorly done!!! items like dark sky should have had an explanation as to what it is and what is the impact either way, as example and the redundant questions were written to lead in one direction, the pet projects of a few!!!

enforce what ?? junk?? they dont enforce what they have now unless pet project of the chosen  
uneven rules or rules made up to suit as needed , what a joke!!

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

THE TOWNSHIP SHOULD WELCOME BUSINESS ACTIVITIES WHICH COULD INCREASE EMPLOYMENT AND BRING A BETTER MIX OF OLDER & YOUNGER FOLKS. I DON'T ADVOCATE PUBLIC SUBSIDY.

## Additional thoughts regarding Greenwood Township community survey

First you must realize that my answers to many of the survey questions are given with limited knowledge of the asked about subject. As is said the *devil is in the details* and they may change my answers.

I believe that the primary concern should be the **water quality** of the lake. It is imperative that it be maintained and/or improved. It affects nearly everything in the area. To accomplish this involves a number of things. Among them runoff control, natural vegetation, wastewater treatment, possible sewage systems, and possible contamination from the proposed hard rock mining in the area. When considering each source the magnitude of the source should be a prime consideration.

A few brief thoughts on other subjects in the survey:

Loud noise from large speedboats is extremely disturbing to a large number of people at one time. Noise from personal watercraft has been reduced the same can be done with boats.

Who can be against improved emergency medical services, although I am not sure how or if it is related to becoming part of the Cook tax district.

A number of things in the survey like light pollution, new and redevelopment tend to be zoning issues and can be grouped under visual character of the lake. These should be dealt with on an individual basis.

In my - years associated with the lake, I have seen its shoreline character change dramatically. From treelined with hardly a light in sight to what it is today. Progress?? I am not sure. It is certain it will continue to change. In what direction for better or worse will depend on us and the decisions we make.

I appreciate the opportunity to comment.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Stop Trying to control every Aspect - limited governing  
would be better than what is going on in Greenwood  
Township! Poorly organized & poorly run Township.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Based on previous actions, the P & Z should be at St. Louis County office for unbiased actions. Adhere to the vote in this issue at the Town mtg. - Nothing done to our voice & opinion. The increase tax for the CCH tax Dist. would not increase service, lower costs etc. NOTHING gained -

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

Greenwood Township should strive to keep taxes in check - Raising taxes to fund some of these ideas will restrict young people and long-time older people from owning property.

20. Please provide any additional comments you may have here or on a separate sheet of paper. Thank you

We have no Vote!  
We Receive No Beneficial Services or Support!  
We seem to be Totally disconnected from most Anything and Should Never have been ANNEXED into Greenwood Township with out A Voice.

Lake of the ozarks used to be a great fishing + family lake. No boat Restrictions or Housing Regulations were put in place. This fishing lake is now in the '50' top party lakes. If you want to fish - mon/tues/wed mornings are best except for holidays due to the speed boats + traffic on the lake.

Due to the high density housing / multi-family dwellings this lake is overpopulated.

High Traffic has caused the following

- > Injuries / deaths yearly
- > Pollution from boats / people
- > Decrease ~~in~~ in wild life
- > Inability to use lake to fish / canoe / kayak as people tie boats up to one another + float + coolers in the lake.
- > Noise level has increased due to docks being bigger with many slips, party music on the docks (dock parties)
- > Homeowners have blocked views of lake due to neighbors home size + docks.
- > Congestion on the lake due to more bars, boats etc has caused increased traffic on the Roadways + DWI's.

list for only <sup>first</sup> mos. of this year.

Is this what we want Lake Vermillion to turn into? The answer is 'No'!

This is why those making decisions need to respect Residents wishes + keep the integrity of this area + this lake. Please inform lake residents on the demographics / job titles of those on steering Committee.

Thank you.

I would like to see Greenwood involved with the Cook Hospital. My concerns are the cost. We pay close to \$500 for the school bond, the Legislature allows the school to tax us under \$500 and based on your formula in #13, we would be above \$500. These amounts have increased our taxes considerable amount. This doesn't include increases from state, St. Louis City or Greenwood. The amount we pay is too high for a rural area with few services. We lived in WI on Lake for more than 36 years all in rural areas near

BIGGEST CONCERN AS ISLAND PROPERTY OWNER, IS MAINTAINING ACCESS & FUNCTION OF MOCCASIN POINT FOR: OVERNIGHT PARKING OF BOAT, CAR/TRUCK & TRAILER. LEAVING THE PIER FOR SOLID, ALL PURPOSE, ALL WEATHER USE. ADEQUATE ROOM TO CONTINUE BARGING & TIE-OFF TO SHORELINE. LEAVE GROUNDS & ROAD AS IS, NATURAL - NOT BLACKTOP OR RETENTION PONDS.

### **Comment Responses:**

- 7a). While "off lake" housing for young families may be needed at some point in time, I doubt that it is necessary for some time. The way the economy is going I doubt many young families can afford off lake housing.
- 7b). Off lake housing for seniors would be an acceptable method for those who wish to stay close to the lake are able to do so. This might be in the form of Condominiums with access to the lake.
- 7c). It appears there is sufficient "off lake" recreation being planned. The questions would be what is the usage of such current recreation facilities.
- 7d). Dark Sky ordinance is something that is questionable at this time. With all the lights currently on the water's edge it would appear to be useless to implement. At question too is the constant target by thieves to vandalize some ones cabin/home. I currently have security cameras (as do others) in place and utilize lighting to make sure there is a risk for someone to steal.
- 7e). Lake water is important and should be protected from chemicals that are harmful. However, the county now has responsibility for septic systems and also designs for road run off. The entity for enforcement is therefore the county.
- 7f). The visual character of the lake is important, but by the same token there is land available to whom someone would want to buy and place a cabin/home on. Is there a subliminal sense here suggesting curtailing construction?
- 7g). Public sewer systems are costly here due to the rock structure. There are however several alternatives for good systems and the county now provides permits so they ought to know what is good for this area. We particularly have a unique systems which works just fine and Northeast Technical indicates that the portion that goes to the drain field is so pure it could go back to the lake—but we use the drain field anyway.
- 7h). New lake shore development- does that pertain to new residences or public use? New residence would be fine but public use seems to be a waste.
- 7i). Outdoor amplified music and announcements should have been separate questions since one necessarily go with the other. There are timeframes in place for amplified music which should be adhered to. Announcements of an emergency nature need more research.
- 7j). Boat motor exhaust systems which are above the limits in place ought to be fined.
- 8a). Storm water runoff for new development should be reasonable. Those who already have runoff which is not in compliance should update...but will those who have their place be pleased with the rule??
- 8b). Runoff retention for existing residences should be encouraged but in some places that will be costly. Will the township absorb some of those costs? Probably not...
- 8c). Encourage nature restoration of shoreline should be at the residence discretion. Some folks have made improvements to their shorelines which enhance the beauty of the lake.
- 8d). There are currently in place if one would seek out information on how to provide great treatment systems. The county who gives out permits should provided alternatives.
- 8e). Publicly owned undeveloped areas will be at the will of the legislature/DNR. Vote those in office who are in favor of good reasonable choices.
- 9a). Existing rules that are in place for housing unit density should be enforced. But then don't ask the question as to whether we ought to plan for additional housing in multiple units.
- 9b). There are rules in place now for set backs etc., why do we allow variances?

- 9c). There are some areas where native shore line restoration will not enhance the beauty of the lake.
- 9d). Without the requirement of all residence this is a dumb rule.
- 9e). This question is not a reasonable request since the adjacent property may be terrible.
- 10a). There is not need for a new trail between Cook & Tower. One can bike and/or snowmobile between the two now.
- 10b). There are several trails now where folks can walk/bike, but I don't see them used.
- 10c). There is now enough recreation at the town hall. I would ask that a record be kept of the usage of what is in place; I would guess that they are not used to the extent that they were thought.
- 10d). There are trails now that could be used and skating is available at the townhall...but again what is the usage?
- 11a). I would discourage off lake assisted living units at this time.
- 11b). There are facilities available for assisted living for the elderly.
- 11c). Dial a ride is available through AEOA for rides if worse come to worse.
- 11d). I believe this service is already available and effective. L
- 15a). Items a,b,c,d,e should be part of the County permit process. They now provide the permits and have the guidelines in place for those permits.
- 16a). St. Louis county and the DNR ought to be more diligent in enforcement of invasive species.
- 16b). There ought to be effective enforcement of exhaust systems on motor boats. But the few get away with everything.
- 16b). Fishing tournaments seem to be meeting requirements of the DNR.
- 18a). Greenwood should simply use the website...but with daily updates maintained by the clerk/board.
- 18b). No
- 18c). Owners should have the right to rent out their cabin/home but under rules put in place by the town board referencing rental units.
- 18d). If there are rules regarding junk etc., then they ought to be enforced.
- 18e). Greenwood does not have the folks who would be able to run a "city" as there would be property owners who would want side walks, street lights, paved roads/alleys etc.
- 18f). Greenwood should not be in the road business since it will cost those who can't have service to pay for services.
- 18g). Greenwood does not need a cemetery at this time.

*I'm very pleased with the County assessing.*

*Why limit question re seniors and young families to "off lake"? Developer should make development decisions as where to site the program. Let developer assess the risk/reward question.*

There seems to be little or no oversight or enforcement of property lines and set backs by the township.

There appears to be some understanding that people can build wherever they want and just figure out lot lines later.

Another neighbor  
I'm trying to go to sleep.

I can hear their conversations when

Will anyone ever want to buy my property with that  
I think not.

My enjoyment of my property has been forever lessened because of what these people have rudely and carelessly done. I can't help but wonder how many others are disgruntled like me with the utter lack of oversight.

I DON'T WANT TO SEE GREENWOOD TOWNSHIP GROW ANY  
BIGGER THAN IT IS. LETS KEEP OUR TAXES DOWN, THE  
BOOK HOSPITAL IS FINE. LETS NOT BE SUCH "BUSY BODIES" and  
find OUR OWN Bibbers!! THERE ARE ENOUGH COUNTY and State  
regulations we don't need to make anymore.

NO WAKE ZONES + SPEED LIMITS / EROSION CONTROL

What Greenwood Township does NOW is fine, keep doing it. Do not look for  
or feel the need to do anything else. Every engine I own has a muffler -  
every boat should also, this is NOT the Atlantic Ocean - engines that loud  
should be prohibited, period. Let free enterprise, not Government, decide what  
the local residents need.

The status of our community is pretty much fine where it is. If everyone just paid attention to their own business it would be even better.

The only request would be more training and or persons in the first responders, medical treatment at the scene, would be a benefit to all.

The fire threat to homes in last 25 years has diminished greatly due to persons updating their heating and their homes/cabins in general.

Minimalization of local government would be nice.

Planning and Zoning should go back to the county ASAP. We pay them.

Greenwood should sell off all but the minimal property need. We are surrounded by parks of all sizes and types.

I would like my statements to be presented to the board, as all statements should be seen by members to see what the community is thinking. Beyond the survey results.

The mailing of this survey turned into  
Quite the mess.  
Multiple Surveys to Same - House holds'??  
Addresses 25 years out of date -  
Sent Out at least 30 days to late  
for ~~mail~~ Seasonal - Persons - Most  
Were in Route and missed Survey  
Deadline.

IT IS DIFFICULT TO ANSWER MANY OF THE QUESTIONS  
WITHOUT DETAILS OF THE VARIOUS PLANS REFERENCED,  
CAN YOU PLEASE TELL US HOW WE CAN OBTAIN COPIES  
OF OR ACCESS TO THE ST. LOUIS COUNTY LAKE VERMILION  
PLAN. THANK YOU, C

Do not waste our tax dollars on recreational  
facilities - ie, Tennis, bike trails, etc.  
Reopen Bayview Lodge / Restaurant,  
Leaves well enough alone.

- We believe Planning & Zoning should be a St. Louis County function
- We have no need or interest in an area wide Siren warning system for Greenwood.

IF A RESIDENCE HAS A SEPTIC  
SYSTEM w/ DRAIN FIELDS, IT SHOULD  
BE INSPECTED EVERY 10 YEARS  
TO MAKE SURE THAT IT IS NOT  
LEAKING INTO LAKE. I'M SURE  
THAT GREENWOOD HAS PLANTS SEPTICS  
THAT ARE NOT WORKING PROPERLY.  
I HAVE A SYSTEM THAT HAS TO BE CH'D  
AND A PERMIT GIVEN EVERY 5 YRS.

GREENWOOD IS NOT DOING A GOOD JOB  
ON PINE ISLAND, WITH PERMITS AND  
~~CHECK~~ UP ON STANDARDS

THANK YOU

- We don't want new development on the lake.
- We want our water quality to be protected.
- Loud boats are a problem on the lake and needs to be addressed.
- Music on the lake OK until dark after dark no music.
- Township residents needs are more important than tourists, campers or resorts' cabin

I'm sorry for not returning this sooner, I have had to deal with many close funerals/deaths.

Overall, I would like to say that both my wife and I want local control and authority.

NOTE: A SIGNIFICANT CONTRIBUTOR TO DEGRADED LAKE WATER QUALITY ARE FAILING OLDER SEPTIC SYSTEMS. THIS IS A CHALLENGE FOR GREENWOOD TOWNSHIP. UNLESS THIS IS ADDRESSED THE LAKE IS IN DANGER.

1. Be good stewards and take care of lakes, streams and land.
2. Storm water is the #1 problem, so keep it out of the lakes and streams.
3. Have adequate open space with buffers.
4. Septic systems need to be addressed. 40% of systems are failing in Minnesota.
5. Leave our lake with a natural wilderness feel.
